

# RAKES

## STURDY, LIGHTWEIGHT

These rakes are of very sturdy construction while relatively light in weight because of the tubular head bar. These rakes are in a class by themselves when it comes to professional quality and yet they compare favourably in price to common garden rakes.

**TINES:** The tines are specially designed to rake without tearing and are spaced on 12 mm (1/2 in) centres for maximum efficiency for most raking chores.

**HANDLE:** The smoothly finished handles area made from top quality hardwood and are extra long 183 cm (72 in) for a longer reach and 28 mm (1-1/8 in) diameter for better grip.

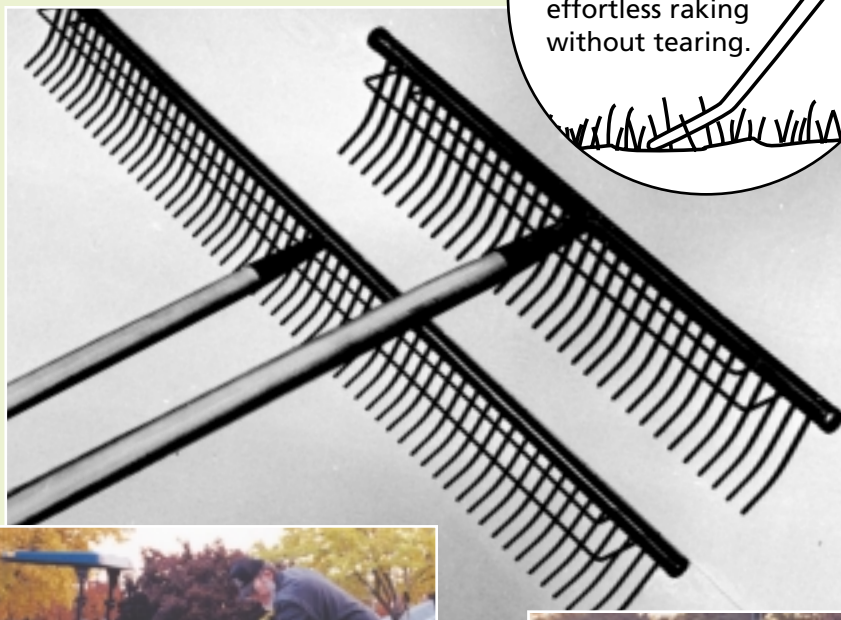

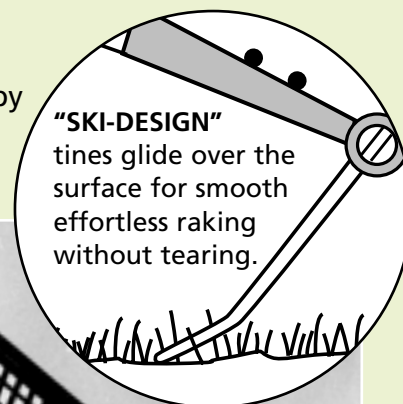

**50112:** 32 Prong (22 in/56 cm) "Ski" rake complete with wooden handle

**50114:** 40 Prong (28 in/71 cm) "Ski" rake complete with wooden handle

**50118:** 56 Prong (38 in/96 cm) "Ski" rake complete with wooden handle

**42985:** Support Bracket Kit (recommended for use with 50118)

**50111:** Replacement wooden handle
