

LINKS TOPPER JR.

THE BIGGEST, LITTLE UNIT IN THE MARKET

Specially Designed for Fast Uniform Topdressing on Golf Courses

A medium-capacity, precision-built topdresser. Hydraulically powered.

Variable-speed conveyor floor and high speed dispensing brush.

Place sand topdressing down in grass plant.

Fill aeration holes to a depth of 30%

FEATURES:

- Powered by tractor hydraulics or optional engine drive hydraulic power pack
- "Walking-beam" axle – tires never crush the turf surface
- Treadless turf tires – consistent pressure of only 8-10 p.s.i. on the surface
- Towable with any turf vehicle
- Topdress wet or dry materials – dispense grass clippings, fill sand traps, top up cart paths with aggregate stone
- "Sugar" topdress
