Model: B-S/S-50

B-S/S-50
Sander/Salter

Spreading Pattern:
Diagonal Striping Bands

With **FLOW-CONTROL** lever set at **MINIMUM**, one 40 kg (88 lb.) bag of dry salt will spread for approximately 760 m (2500 linear feet)

TOTAL COVERAGE: 391 m² (4250 sq. ft.)

With **FLOW-CONTROL** lever set at **MAXIMUM**, one 40 kg (88 lb.) bag of dry salt will spread for approximately 122 m (400 linear feet)

TOTAL COVERAGE: 63 m² (680 sq. ft.)

- No moving parts inside hopper means less corrosion, longer life.
- Dump lever allows for easy emptying.
- Steel fingers ripple sand or salt on interior back of "V" hopper to move materials down and out of the hopper. External rubber beaters break up and dispense materials economically.
- Rest bracket for Cleaning and Storage.
